Claims 1-4 are presented for examination.

The amendments and remarks filed on December 24 2003 have been received and entered.

Claims 1-4 are rejected under 35 U.S.C. 103 as being unpatentable over The Patent Abstract of Japan 10319358 (Menicin CO LTD) and the Patent Abstract of Japan 10108899 (Tomey Technol Corp) for the reasons set forth on pages 2 and 3 of the office action of September 24, 2003.

Applicant's arguments and declaration have been carefully considered, but are not deemed to be persuasive. Applicant alleges criticality to the lower concentrations of the claimed invention and the superior anti-bacterial activity of such concentrations. The allegation is not well taken. The presented data in the declaration demonstrating the superior activity of the claimed lower concentrations are not commensurate in scope with claimed language. Applicant's arguments regarding the different use of the claimed composition are not also well taken. The claims of the instant application are composition claims and the method of use claims.

Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, claims 1-4 are properly rejected under 35 U.S.C. 103.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1614

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
